

Highway 101 Waterline Extension

Laurens County Water & Sewer

SC HWY 101 is a high traffic-high speed road in a rapidly developing industrial corridor of Laurens County

The water main connected to an existing 12-inch water main in Gray Court and extended water service to the I-385 and SC 101 interchange. The SC HWY 101 waterline extension consisted of approximately 10,500 linear feet of 8-inch water main and related appurtenances. The project also included a 16-inch steel encased bore under I-385. The project was completed under budget in early 2007.

The Project: Preliminary Engineering Report
Preliminary Design
Field Location Survey
Final Design
Construction Services

Contract Value: \$350,000

Contract Period:

Principal Contractor: Payne, McGinn & Cummins, Inc.
